

Holy Holy Day

HOFMI Congregation Member - 14 February 2024

Holy holy day, you go come what may
However, I told you to stay but you went anyway
Leaving your family behind
You willingly press rewind
I did warn you, you chose to be blind
This way of the world is so big in your heart
The conflict you experience is because you think you are so smart
This fire is evidence of My love for you
It is what will empower you to do the things I want you to do
So many things I want to show, but first I am helping you with this
thing
I know it has a sting
But go there with Me, and it will set you free
Holy holy day, I am setting this straight, this is My way
From now on when I say, "Stay," that is My final say

Prayers, Hymns and Spiritual Songs
