

# Precious Promises Part 2

Pastor Sharon Bendixen

7 July 2024

---

Thank you, Lord God, for your presence and guidance. Thank you that we can be receptive to God's word and your messages. *Message Moments* is a time when we as a church can revisit and reflect on previous sermons to deepen our understanding and ensure the messages resonate throughout the week.

We as a church have to reflect on our personal journey of spiritual growth and the importance of being attentive to the messages delivered by our pastors. We all know that these messages are considered a divine guidance meant specifically for our congregation. We as a congregation must know the importance of not being distracted by other external teachings and staying focused on what is taught within our church. Heritage of Faith Witbank.

We have been on this journey *Crossover* since September 2023, and our aim was and still is to transform and elevate our spiritual state. On our journey we have learned to understand and apply God's messages, living by His divine principles, and moving from earthly to spiritual thinking. How great is it that we are there NOW!

We must remember to not go back to old habits. It's so important that we must still progress in faith. We have to transition from natural to supernatural living now, we as a congregation must recognize and embrace our spiritual growth and our new identity.

In summary, we must emphasize on the following:

- The importance of being attentive to God's word and messages delivered through the messenger.
- Revisiting and reflecting on sermons for a deeper understanding.
- Stay focused on the teachings within our church.
- Our journey of spiritual transformation and the importance of progressing in our faith.
- Embracing our new spiritual identity and living by our divine principles.

We have to let God expose and address the issues in our hearts rather than relying on others to do so. God is serious about blessing His people but on His terms, which requires us to live by faith. Pastor Sharon shares a personal revelation of moving from a natural, sense-based life to a spiritual, faith-based life. She explains that faith means living in the unseen realm with God, trusting in His promises, and not being swayed by what is seen or felt. This transition is described as moving from a 3D to a 4D life, where spiritual blessings manifest in the natural world. Pastor Sharon highlights the importance of thinking in alignment with God's word and forsaking worldly thoughts. We all must recognize our spiritual progress, live by faith, and embrace our new spiritual reality.

Read Hebrews 11:1-3 (AMPC) (NLT) (TPT)
